

MAIL Tattle-Tail

Never make another wasted trip to the mailbox!

The MAIL Tattle-Tail will automatically tell you when you have mail. When you see the yellow flag in the upright position, your mail has arrived!

Installation Instructions:

- 1) The Tattle-Tail is designed for single-walled mailboxes and is to be installed on the left side of the mailbox (when looking at the mailbox from the front).

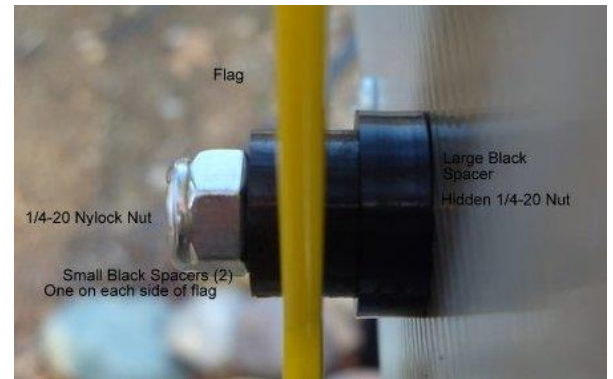

For standard and mid-size (T-2) mailboxes:

Drill a 1/4-inch hole 2-inches up from the bottom and 2-inches back from the front of the mailbox with the door closed.

For heavy duty (Tuff Body) mailboxes: Drill a 1/4-in hole 2- 1/8 inches up from the bottom and 2- 3/8 inches from the front.

For extra-large jumbo (T-3) mailboxes: Drill a 1/4-inch hole 2-inches from the front and 1- 1/2 inches up from the bottom.

- 2) Place the 1/4-inch flat washer on the 1/4-20 x 1-inch bolt and insert it through the drilled hole from inside the mailbox. ***If Tuff Body mailbox, omit the washer.***
- 3) Put on the 1/4-20 nut and tighten securely, then close the mailbox door.
- 4) Put the large plastic spacer on followed by a small plastic spacer, then the MAIL Tattle-Tail flag followed by the last small spacer.
- 5) Finally, install the 1/4-20 nylon locknut and tighten it until the MAIL Tattle-Tail flag will stay up when the door is opened while still allowing the door to be opened easily.
